

Smile
and the whole world smiles with you.

“We pledge to provide excellent dentistry in a caring environment, while striving to exceed our patients’ expectations. Our goals are to use proven technology and procedures to help you attain optimal oral health; to achieve the best aesthetic results and longevity possible; and to foster a relationship of mutual appreciation and trust.”

Your comments, suggestions, and input are important to us. We care about your opinion of our dental services, staff, office & web site. If there is anything we can do to make your visit more enjoyable, please let us know.

*Thank you,
Dr. James C. Calcagno & Staff*

Welcome to
the office of
Dr. James Calcagno.

Choosing the right health care provider can make a big difference in your quality of life. With Dr. Calcagno, you will find a dentist who is attentive, well-educated, professional, and experienced. His dental services utilize technologically advanced equipment and procedures, as well as a very personable, dedicated, and highly experienced staff.

As a graduate of the University of the Pacific's School of Dentistry, Dr. James Calcagno brings to his practice an integrated background in the biological, chemical, and physical sciences, as well as a sophisticated knowledge and application of dental health technologies.

Dr. Calcagno pursues continuing education to keep current on new procedures and methodologies. He is also a member of prominent dental associations and an avid reader and researcher of professional journals dedicated to the very latest in dental care practices.

Dr. James Calcagno has been in practice locally, at the Opal Cliffs Professional Building at Pleasure Point, since 1987.

CEREC® 3D • *In just one visit*, the **CEREC 3D** can produce a new tooth-colored crown or restoration. These beautiful restorations are *produced on-site* and can be placed *the same day*, thus eliminating the need for a second visit for dental work in the same area.

Lumineers • Lumineers are prep-less veneers, thin as contact lenses, which are *a permanent cosmetic solution for stained, chipped, discolored, or misaligned teeth*. Lumineers are a patented, name-brand smile-design that can, in some cases, eliminate the need for additional tooth work and anesthesiology.

Digital X-Ray Imagery • Safer and more precise than traditional X-ray, digital X-ray imagery is used to *diagnose and treat dental problems early and conservatively*. Regular check-ups using digital X-ray imagery may save patients from procedures that could become necessary without early detection.

Sedation • *Anxious about seeing the dentist?* Sedation dentistry, available by appointment, can *produce a remarkable depth of relaxation* during your visit. Sedation makes appointment time pass quickly, minimizes memory recall, and permits a greater amount of dentistry to be done in a minimum amount of time.

Appointments • We are open Monday through Friday.

Insurance • We are happy to assist our patients with dental insurance by filing the necessary forms to help you receive the full benefits of your coverage.

Payment Plans • We accept all major credit cards and offer many financial options.

Should you require additional information, or would like to tour our facility, please feel free to call the office at (831) 475-4100.

We always appreciate referrals!

Member of the Academy of General Dentistry, Orognathic Bioesthetics International, and the Pleasure Point Business Association.
